

NEIL P.

AGE	36
OCCUPATION	Graphic Designer
STATUS	Single
LOCATION	San Diego
PET	English Setter
ARCHETYPE	Involved but occasionally absent

GOALS

To find a caring and engaged person to take care of his English setter Buck while he is on occasional out of town business trips.

FRUSTRATIONS

Cannot always rely on friends to step in which adds to the stress of the trips.

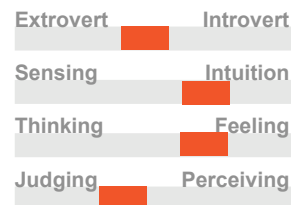

BIO

Very active, and enjoys outdoors activities. Usually will take his dog, Buck, along on hikes and camping trips but is regularly called out of town for business for about one week every three or four months. Cannot always rely on friends to watch Buck. Needs reliable hands-on, dog sitter to stop by home to feed, exercise and give company to Buck.

QUOTE

Rumi has been watching my dog at home over the last two years and I couldn't be more pleased! She leaves a report on how Buck did, e-mails or calls with any concerns, and always responds very quickly to e-mails or messages. I know Buck can be a handful but she always takes great care with him and when I return, it is like I never left. I would absolutely recommend North County Pet Sitting!
