GOALS

To find a caring professional who will provide the care, attention and affection my dog deserves when I am not at home.

FRUSTRATIONS

Other dog sitting providers will go through the steps of feeding and exercise but in a mechanical and impersonal manner.

BIO

A very busy professional. Works long hours four days per week with a long commute to and from work. Is unable to come home to walk her dog. Is in need of someone she can trust to walk her active dog at least twice on the days she is at work and to make sure the dog is fed and watered.

QUOTE

I have used North County Pet Sitting for 1 year and I wouldn't use anyone else. Rumi and Kristy are so caring when they watch my dog, Kenzy. They will even send a photo of Buck when he is on a walk. And, recently, I have had to contact them on short notice and they are always able to accommodate my schedule. I would highly recommend them!
